Sprint Total Bill Comparison Promotion

Sprint may make available to prospective business customers a special discount when a customer orders either Sprint Business Flex<sup>sm</sup> with All Calls All Day<sup>sm</sup> or Sprint Real Solutions Annual. To participate in this promotion, the prospective business customer must: (1) provide Sprint with its most recent monthly invoice for similar long distance services from one of the following competitor's: MCI WorldCom; AT&T; Qwest; or Frontier; and (2) have net aggregate monthly service usage charges on that invoice that are at least \$50 but less than \$18,000.

If the aggregate service usage and access charges (limited to interstate, intrastate, and international switched and dedicated inbound, outbound, and calling card service usage charges, calling card surcharges, Access Coordination Fees (ACF), Central Office Connection (COC) fees, local access line charges (T-1 bandwidth or less), and the \$5 per service group location inbound monthly recurring charge on the competitor's invoice are less than Sprint's current aggregate tariffed rates for those same service types and access charges, under either Sprint Business Flex with All Calls All Day or Sprint Real Solutions Annual, then the prospective business customer is eligible to receive a special promotional discount(s) intended to match or beat the competitor's aggregate pricing. If Sprint's current aggregate tariffed rates for those same service types and access charges, less the special promotional discount(s), are not less than the competitor's aggregate pricing, then Sprint will provide the prospective business customer with one prepaid calling card worth \$100 in long distance charges.

The above comparison will be limited to the calling patterns reflected on only one monthly invoice from an eligible competitor. Sprint does not guarantee that it will be the lowest-cost service provider if customer's calling patterns change, or if customer is eligible for discounts or credits from the competitor that are not reflected on the comparison invoice. The comparison will be made only for business lines that have the comparison carrier designated as the Primary Interexchange Carrier. The comparison will exclude any regulatory charges or taxes. Customers that receive long distance service bundled with local or wireless services are not eligible. If a promotional discount(s) is applied to a customer's intrastate usage, then according to the applicable state's special pricing regulations, notice will be filed with the appropriate commission. The promotional discount(s) will not exceed Sprint's tariffed rates. The customer will receive the benefits of the promotional discount(s) for as long as it remains a Sprint Business Flex with All Calls All Day customer, or for the duration of its Sprint Real Solutions Annual initial term agreement. This promotion is available only to customers that dial a toll free number listed in special advertising or who are contacted by a Sprint representative. Any orders for switched service must be activated by **January 31, 2001**. Any orders for dedicated service must be activated by **March 31, 2001**. This promotion will expire on **December 31, 2000**, unless sooner cancelled or changed by Sprint. This promotion is limited to one prepaid calling card per prospective business customer or prospective business customer affiliate.

Real Solutions Business Environment Promotion

Sprint may offer the following promotion to: (1) new Sprint customers that sign a Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement; or (2) existing Sprint customers, with not more than 3, 6, or 9 months remaining on a Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement, that sign a new Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement. The following provisions will apply to an eligible customer's Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement:

(1) If a customer cannot meet its Minimum Annual Commitment ("MAC") because the customer sells or disposes of a subsidiary or significant business unit, or because of a business downturn beyond customer's control, Sprint may allow the customer to reduce its MAC to an existing Sprint Real Solutions Annual or Sprint Real Solutions VPN MAC level that is commensurate with the resulting reduction in usage charges. The customer will receive the rates associated with the reduced MAC level. To invoke this provision, an officer of the customer will: (i) notify Sprint in writing within 30 days after the business downturn; (ii) include in the notice a description of the sale or disposition of the subsidiary or significant business unit, or the business downturn, and its effect on the customer's operations and services usage; (iii) certify that the customer has awarded Sprint the applicable percentage of its and its Affiliates' long distance communications service as required by Section 5. e. of its sales agreement; and (iv) sign a new Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement with a term that is equal to or longer than the term in the customer's existing sales agreement. The customer's new sales agreement will supersede its existing sales agreement. This provision will not apply if the customer decides to: (i) reduce its telecommunications services use for reasons unrelated to a sale or disposition or business downturn; (ii) change its telecommunications network architecture; or (iii) transfer part of its telecommunications traffic or projected growth to other carriers. (2) If Sprint materially fails to provide Sprint Real Solutions Annual or Sprint Real Solutions VPN services, the customer will provide prompt written notice to Sprint detailing the failure. If Sprint does not cure the failure within a reasonable time, the customer may, with 30 days' written notice, terminate this Agreement without incurring any termination liability. Sprint's material failure does not include a failure caused by circumstances not within Sprint's sole control including, but not limited to, a failure caused by: (1) a local exchange carrier; (2) customer premises equipment; or (3) the customer. Customer will not receive any promotional credits after the date of its termination notice. (3) If the customer purchases a new service made available by Sprint during the Term as a direct substitute for an existing Sprint contributory service, the customer's services usage charges for the substitute service will contribute to the customer's MAC.

This promotion will apply for the length of the customer's sales agreement. Any reduction in a customer's MAC level under this Promotion may result in ineligibility for any or all existing promotions. This promotion will be available to qualified customers until **December 31, 2000**.

Sprint Total Bill Comparison Promotion

Sprint may make available to prospective business customers a special discount when a customer orders either Sprint Business Flex<sup>sm</sup> with All Calls All Day<sup>sm</sup> or Sprint Real Solutions Annual. To participate in this promotion, the prospective business customer must: (1) provide Sprint with its most recent monthly invoice for similar long distance services from one of the following competitor's: MCI WorldCom; AT&T; Qwest; or Frontier; and (2) have net aggregate monthly service usage charges on that invoice that are at least \$50 but less than \$18,000.

If the aggregate service usage and access charges (limited to interstate, intrastate, and international switched and dedicated inbound, outbound, and calling card service usage charges, calling card surcharges, Access Coordination Fees (ACF), Central Office Connection (COC) fees, local access line charges (T-1 bandwidth or less), and the \$5 per service group location inbound monthly recurring charge on the competitor's invoice are less than Sprint's current aggregate tariffed rates for those same service types and access charges, under either Sprint Business Flex with All Calls All Day or Sprint Real Solutions Annual, then the prospective business customer is eligible to receive a special promotional discount(s) intended to match or beat the competitor's aggregate pricing. If Sprint's current aggregate tariffed rates for those same service types and access charges, less the special promotional discount(s), are not less than the competitor's aggregate pricing, then Sprint will provide the prospective business customer with one prepaid calling card worth \$100 in long distance charges.

The above comparison will be limited to the calling patterns reflected on only one monthly invoice from an eligible competitor. Sprint does not guarantee that it will be the lowest-cost service provider if customer's calling patterns change, or if customer is eligible for discounts or credits from the competitor that are not reflected on the comparison invoice. The comparison will be made only for business lines that have the comparison carrier designated as the Primary Interexchange Carrier. The comparison will exclude any regulatory charges or taxes. Customers that receive long distance service bundled with local or wireless services are not eligible. If a promotional discount(s) is applied to a customer's intrastate usage, then according to the applicable state's special pricing regulations, notice will be filed with the appropriate commission. The promotional discount(s) will not exceed Sprint's tariffed rates. The customer will receive the benefits of the promotional discount(s) for as long as it remains a Sprint Business Flex with All Calls All Day customer, or for the duration of its Sprint Real Solutions Annual initial term agreement. This promotion is available only to customers that dial a toll free number listed in special advertising or who are contacted by a Sprint representative. Any orders for switched service must be activated by October 31, 2000. Any orders for dedicated service must be activated by November 30, 2000. This promotion will expire on September 30, 2000, unless sooner cancelled or changed by Sprint. This promotion is limited to one prepaid calling card per prospective business customer or prospective business customer affiliate.

Real Solutions Business Environment Promotion

Sprint may offer the following promotion to: (1) new Sprint customers that sign a Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement; or (2) existing Sprint customers, with not more than 3, 6, or 9 months remaining on a Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement, that sign a new Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement. The following provisions will apply to an eligible customer's Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement:

(1) If a customer cannot meet its Minimum Annual Commitment ("MAC") because the customer sells or disposes of a subsidiary or significant business unit, or because of a business downturn beyond customer's control, Sprint may allow the customer to reduce its MAC to an existing Sprint Real Solutions Annual or Sprint Real Solutions VPN MAC level that is commensurate with the resulting reduction in usage charges. The customer will receive the rates associated with the reduced MAC level. To invoke this provision, an officer of the customer will: (i) notify Sprint in writing within 30 days after the business downturn; (ii) include in the notice a description of the sale or disposition of the subsidiary or significant business unit, or the business downturn, and its effect on the customer's operations and services usage; (iii) certify that the customer has awarded Sprint the applicable percentage of its and its Affiliates' long distance communications service as required by Section 5. e. of its sales agreement; and (iv) sign a new Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement with a term that is equal to or longer than the term in the customer's existing sales agreement. The customer's new sales agreement will supersede its existing sales agreement. This provision will not apply if the customer decides to: (i) reduce its telecommunications services use for reasons unrelated to a sale or disposition or business downturn; (ii) change its telecommunications network architecture; or (iii) transfer part of its telecommunications traffic or projected growth to other carriers. (2) If Sprint materially fails to provide Sprint Real Solutions Annual or Sprint Real Solutions VPN services, the customer will provide prompt written notice to Sprint detailing the failure. If Sprint does not cure the failure within a reasonable time, the customer may, with 30 days' written notice, terminate this Agreement without incurring any termination liability. Sprint's material failure does not include a failure caused by circumstances not within Sprint's sole control including, but not limited to, a failure caused by: (1) a local exchange carrier; (2) customer premises equipment; or (3) the customer. Customer will not receive any promotional credits after the date of its termination notice. (3) If the customer purchases a new service made available by Sprint during the Term as a direct substitute for an existing Sprint contributory service, the customer's services usage charges for the substitute service will contribute to the customer's MAC.

This promotion will apply for the length of the customer's sales agreement. Any reduction in a customer's MAC level under this Promotion may result in ineligibility for any or all existing promotions. This promotion will be available to qualified customers until September 30, 2000.

Real Solutions Business Environment Promotion

BY: Stephan Bue  
SECRETARY OF THE COMMISSION

Sprint may offer the following promotion to: (1) new Sprint customers that sign a Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement; or (2) existing Sprint customers, with not more than 3, 6, or 9 months remaining on a Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement, that sign a new Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement. The following provisions will apply to an eligible customer's Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement:

(1) If a customer cannot meet its Minimum Annual Commitment ("MAC") because the customer sells or disposes of a subsidiary or significant business unit, or because of a business downturn beyond customer's control, Sprint may allow the customer to reduce its MAC to an existing Sprint Real Solutions Annual or Sprint Real Solutions VPN MAC level that is commensurate with the resulting reduction in usage charges. The customer will receive the rates associated with the reduced MAC level. To invoke this provision, an officer of the customer will: (i) notify Sprint in writing within 30 days after the business downturn; (ii) include in the notice a description of the sale or disposition of the subsidiary or significant business unit, or the business downturn, and its effect on the customer's operations and services usage; (iii) certify that the customer has awarded Sprint the applicable percentage of its and its Affiliates' long distance communications service as required by Section 5. e. of its sales agreement; and (iv) sign a new Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement with a term that is equal to or longer than the term in the customer's existing sales agreement. The customer's new sales agreement will supersede its existing sales agreement. This provision will not apply if the customer decides to: (i) reduce its telecommunications services use for reasons unrelated to a sale or disposition or business downturn; (ii) change its telecommunications network architecture; or (iii) transfer part of its telecommunications traffic or projected growth to other carriers. (2) If Sprint materially fails to provide Sprint Real Solutions Annual or Sprint Real Solutions VPN services, the customer will provide prompt written notice to Sprint detailing the failure. If Sprint does not cure the failure within a reasonable time, the customer may, with 30 days' written notice, terminate this Agreement without incurring any termination liability. Sprint's material failure does not include a failure caused by circumstances not within Sprint's sole control including, but not limited to, a failure caused by: (1) a local exchange carrier; (2) customer premises equipment; or (3) the customer. Customer will not receive any promotional credits after the date of its termination notice. (3) If the customer purchases a new service made available by Sprint during the Term as a direct substitute for an existing Sprint contributory service, the customer's services usage charges for the substitute service will contribute to the customer's MAC.

This promotion will apply for the length of the customer's sales agreement. Any reduction in a customer's MAC level under this Promotion may result in ineligibility for any or all existing promotions. This promotion will be available to qualified customers until **June 30, 2000.**

Business Sense Authorized Retailer Promotion II

New customers subscribing to Business Sense, non-term, \$50 minimum monthly commitment level service, through certain Sprint-authorized retailers, including but not limited to Staples The Office Superstore, may be eligible to receive a promotional discount on their intrastate inbound, intrastate outbound, and intrastate FONCARD Business Sense voice service usage. In order to be eligible for this promotion, new customers must: (i) switch their interexchange presubscribed carrier to Sprint by enrolling in Business Sense non-term \$50 minimum monthly commitment level service through a Sprint-authorized retailer, and (ii) designate Sprint as their "Exclusive Telecommunications Service Provider". This promotion is available as well to existing Business Sense customers if such customer (i) has been a Sprint business customer for at least 90 days, and (ii) calls Sprint to request enrollment in Business Sense non-term \$50 commitment level service under this promotion.

Business Sense \$50 commitment level non-term customers will receive a promotional discount of 20% off of voice usage, starting with the customer's next available billing invoice following the date upon which the customer enrolls in this promotion and continuing until the customer's Sprint Business Sense non-term \$50 minimum monthly commitment level service is terminated. The promotional discount is in lieu of standard tariffed discounts. Customer's initial location must be activated by July 31, 2000. The promotional discount received under this promotion cannot be combined with any other promotion offering. This promotion is available for enrollment through June 30, 2000, unless sooner changed or canceled by Sprint.

Sprint Total Bill Comparison Promotion

Beginning January 28, 2000, Sprint may make available to prospective business customers a special discount when a customer orders either Sprint Business Flex<sup>sm</sup> with All Calls All Day<sup>sm</sup> or Sprint Real Solutions Annual. To participate in this promotion, the prospective business customer must: (1) provide Sprint with its most recent monthly invoice for similar long distance services from one of the following competitor's: MCI WorldCom; AT&T; Qwest; or Frontier; and (2) have net aggregate monthly service usage charges on that invoice that are at least \$50 but less than \$18,000.

If the aggregate service usage and access charges (limited to interstate, intrastate, and international switched and dedicated inbound, outbound, and calling card service usage charges, calling card surcharges, Access Coordination Fees (ACF), Central Office Connection (COC) fees, local access line charges (T-1 bandwidth or less), and the \$5 per service group location inbound monthly recurring charge on the competitor's invoice are less than Sprint's current aggregate tariffed rates for those same service types and access charges, under either Sprint Business Flex with All Calls All Day or Sprint Real Solutions Annual, then the prospective business customer is eligible to receive a special promotional discount(s) intended to match or beat the competitor's aggregate pricing. If Sprint's current aggregate tariffed rates for those same service types and access charges, less the special promotional discount(s), are not less than the competitor's aggregate pricing, then Sprint will provide the prospective business customer with one prepaid calling card worth \$100 in long distance charges.

The above comparison will be limited to the calling patterns reflected on only one monthly invoice from an eligible competitor. Sprint does not guarantee that it will be the lowest-cost service provider if customer's calling patterns change, or if customer is eligible for discounts or credits from the competitor that are not reflected on the comparison invoice. The comparison will be made only for business lines that have the comparison carrier designated as the Primary Interexchange Carrier. The comparison will exclude any regulatory charges or taxes. Customers that receive long distance service bundled with local or wireless services are not eligible. If a promotional discount(s) is applied to a customer's intrastate usage, then according to the applicable state's special pricing regulations, notice will be filed with the appropriate commission. The promotional discount(s) will not exceed Sprint's tariffed rates. The customer will receive the benefits of the promotional discount(s) for as long as it remains a Sprint Business Flex with All Calls All Day customer, or for the duration of its Sprint Real Solutions Annual initial term agreement. This promotion is available only to customers that dial a toll free number listed in special advertising or who are contacted by a Sprint representative. Any orders for switched service must be activated by April 30, 2000. Any orders for dedicated service must be activated by May 31, 2000. This promotion will expire on March 31, 2000, unless sooner cancelled or changed by Sprint. This promotion is limited to one prepaid calling card per prospective business customer or prospective business customer affiliate.

Real Solutions Business Environment Promotion

(N)

NOV 29 1999

Beginning November 29, 1999, Sprint may offer the following promotion to: (1) new Sprint customers that sign a Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement; or (2) existing Sprint customers, with not more than 3, or 9 months remaining on a Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement, that sign a new Sprint Real Solutions Annual sales agreement or a Sprint Real Solutions VPN sales agreement. The following provisions will apply to an eligible customer's Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement:

PURSUANT TO 807 KAR 5.011,  
SECTION 9(1)  
BY: Stephen O. Bell  
SECRETARY OF THE COMMISSION

(1) If a customer cannot meet its Minimum Annual Commitment ("MAC") because the customer sells or disposes of a subsidiary or significant business unit, or because of a business downturn beyond customer's control, Sprint may allow the customer to reduce its MAC to an existing Sprint Real Solutions Annual or Sprint Real Solutions VPN MAC level that is commensurate with the resulting reduction in usage charges. The customer will receive the rates associated with the reduced MAC level. To invoke this provision, an officer of the customer will: (i) notify Sprint in writing within 30 days after the business downturn; (ii) include in the notice a description of the sale or disposition of the subsidiary or significant business unit, or the business downturn, and its effect on the customer's operations and services usage; (iii) certify that the customer has awarded Sprint the applicable percentage of its and its Affiliates' long distance communications service as required by Section 5. e. of its sales agreement; and (iv) sign a new Sprint Real Solutions Annual or Sprint Real Solutions VPN sales agreement with a term that is equal to or longer than the term in the customer's existing sales agreement. The customer's new sales agreement will supersede its existing sales agreement. This provision will not apply if the customer decides to: (i) reduce its telecommunications services use for reasons unrelated to a sale or disposition or business downturn; (ii) change its telecommunications network architecture; or (iii) transfer part of its telecommunications traffic or projected growth to other carriers. (2) If Sprint materially fails to provide Sprint Real Solutions Annual or Sprint Real Solutions VPN services, the customer will provide prompt written notice to Sprint detailing the failure. If Sprint does not cure the failure within a reasonable time, the customer may, with 30 days' written notice, terminate this Agreement without incurring any termination liability. Sprint's material failure does not include a failure caused by circumstances not within Sprint's sole control including, but not limited to, a failure caused by: (1) a local exchange carrier; (2) customer premises equipment; or (3) the customer. Customer will not receive any promotional credits after the date of its termination notice. (3) If the customer purchases a new service made available by Sprint during the Term as a direct substitute for an existing Sprint contributory service, the customer's services usage charges for the substitute service will contribute to the customer's MAC.

This promotion will apply for the length of the customer's sales agreement. Any reduction in a customer's MAC level under this Promotion may result in ineligibility for any or all existing promotions. This promotion will be available to qualified customers until March 31, 2000.

SECTION 10 (1)

Beginning April 1, 1999, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$50 commitment level non-term, 1-year, or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.148 per minute on their Kentucky in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Additionally, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.12 per minute on their Kentucky in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense Term or non-term Plan will receive this promotional rate for 12 invoices.

In order to be eligible for this promotion, customer must designate Sprint as its "Exclusive Telecommunications Service Provider and activate its initial location by 01/31/2000. This promotion cannot be combined with any other promotion applicable to Business Sense intrastate usage except for the "Business Sense Credit Promotion" or Affinity discounts. The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through 12/31/99 unless sooner changed or cancelled by Sprint. New customer locations added after 12/31/99 are not eligible for this promotion. This promotion is applicable only to the first \$10,000 of total net intrastate voice service usage per month per customer. This promotion may be used only by business customers only for commercial use and only at customer's associated locations.

"Exclusive Telecommunications Service Provider" means that customer will award Sprint 100% of its and its Affiliated Locations long distance telecommunications service. "Affiliated Locations" for purposes of this paragraph means those locations for which customer either purchases, controls or directs the purchases of long distance telecommunications service on the promotion's effective date. Customer's total volume of long distance telecommunications service will not include: (i) any binding commitments that customer or any of its Affiliated Locations may have with another interexchange carrier on the promotion's effective date; or (ii) service that is routed to another carrier, but only during the period of any Sprint Service outage. The amount of these commitments will be deducted from Customer's total amount of long distance telecommunications service when measuring customers' compliance with this provision. If during any month of the term of the promotion, customer fails to award its long distance telecommunications service to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates and discounts. In addition, Sprint will bill customer for the promotional discounts received under this promotion during any billing months that Sprint was not customer's "Exclusive Telecommunications Service Provider".

If a customer's Business Sense Service Agreement, upon which this promotion is based, is terminated, Customer shall reimburse Sprint for all promotional credits or discounts received in connection with the promotion enrollment (in addition to termination liabilities associated with the termination of the Business Sense Service Agreement), unless such termination is permitted without liability as specified in the Business Sense Service Agreement. Sprint will bill the customer in accordance with the promotional rates only during the months in which customer complies with all eligibility requirements and other provisions of this promotion. In the event that the customer fails to comply with the eligibility requirements for the applicable promotion, Sprint may discontinue the promotion to the customer and charge the applicable tariff rates.

Additionally, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.12 per minute on their Kentucky in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense Term or non-term Plan will receive this promotional rate for 12 invoices.

In order to be eligible for this promotion, customer must designate Sprint as its "Exclusive Telecommunications Service Provider and activate its initial location by 07/31/99. This promotion cannot be combined with any other promotion applicable to Business Sense intrastate usage except for the "Business Sense Credit Promotion" or Affinity discounts. The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through 06/30/99 unless sooner changed or cancelled by Sprint. New customer locations added after 06/30/99 are not eligible for this promotion. This promotion is applicable only to the first \$10,000 of total net intrastate voice service usage per month per customer. Customer's total volume of long distance telecommunications service will not include: (i) any binding commitments that customer or any of its Affiliated Locations may have with another interexchange carrier on the promotion's effective date; or (ii) service that is routed to another carrier, but only during the period of any Sprint Service outage. The amount of these commitments will be deducted from Customer's total amount of long distance telecommunications service when measuring customers' compliance with this provision. If during any month of the term of the promotion, customer fails to award its long distance telecommunications service to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates and discounts. In addition, Sprint will bill customer for the promotional discounts received under this promotion during any billing months that Sprint was not customer's "Exclusive Telecommunications Service Provider".

Kentucky Business Sense Intrastate Promotion

Beginning November 16, 1998, new and existing Business Sense customers subscribed or subscribing to a Business Sense \$200, \$500, \$750, \$2,000, or \$4,000 commitment level non-term, 1-year or 2-year term plan and enrolled or enrolling in the Business Sense Credit Promotion are eligible to receive a promotional rate of \$0.12 per minute on their Kentucky in-state Business Sense Outbound and Business Sense Toll Free switched voice service usage. Sprint Business Sense customers who are currently enrolled in a Business Sense Term or non-term Plan will receive this promotional rate for 24 invoices or until customer terminates its Business Sense Service.

In order to be eligible for this promotion, customer must (i) designate Sprint as its "Exclusive Telecommunications Service Provider" and (ii) activate or have activated its Business Sense service by placing or receiving at least one call within 90 consecutive days of enrollment in a Business Sense term or non-term commitment level plan. This promotion cannot be combined with any other promotion applicable to Business Sense Intrastate usage except for the "Business Sense Credit Promotion." The per minute promotional rate is in lieu of standard tariff rates and discounts and is available through 03/31/99 unless sooner changed or cancelled by Sprint. New customer locations added after 03/31/99 are not eligible for this promotion. This promotion is applicable only to the first \$10,000 of total net IntraLATA voice service usage per month per customer. This promotion may be used only by business customers only for commercial use and only at customer's associated locations.

"Exclusive Telecommunications Service Provider" means that Sprint shall be awarded 100% (excluding usage at volume levels currently under contract with another carrier on the execution of this promotion and networks established for redundancy as long as backup carrier is used only in the event of a Sprint outage, and only for the period of that outage) of its long distance communications services to Sprint. If during any month of the term, customer fails to award such traffic to Sprint, customer will not receive any further promotional discounts and all subsequent charges for Sprint services will be based upon standard tariff rates and discounts. In addition, Sprint will bill the customer for the promotional discounts received under this promotion during any billing months that Sprint was not the customer's Exclusive Telecommunications Service Provider.

If a Customer's Business Sense Service Agreement, upon which this promotion is based, is terminated, Customer shall reimburse Sprint for all promotional credits or discounts received in connection with the promotion enrollment (in addition to termination liabilities associated with the termination of the Business Sense Service Agreement), unless such termination is permitted without liability as specified in the Business Sense Service Agreement. Sprint will bill the customer in accordance with the promotional rates only during the months in which customer complies with all eligibility requirements and other provisions of this promotion. In the event that the customer fails to comply with the eligibility requirements for the applicable promotion, Sprint may discontinue the promotion to the customer and charge the applicable tariff rates.
